

**FRA Rubric(Extended Project)**

## FRA Rubric(Extended Project)

Criteria	Ratings	Pts
Outlier Treatment		8.0 pts
Missing Value Treatment		8.0 pts
Check for multicollinearity		5.0 pts
Univariate & bivariate analysis		10.0 pts
Split the data into train and test (70:30)		5.0 pts
Build Logistic Regression Model on most important variables		15.0 pts
Predict accuracy of model on train and test datasets		5.0 pts
Sort the data in descending order based on probability of default and then divide into 10 dociles based on probability & check how well the model has performed		10.0 pts
Build Random Forest Model and predict the accuracy on Train and Test Data		10.0 pts
Compare the performance of Logistics Regression and Random Forest		5.0 pts
Quality of Business Report		9.0 pts
Total Points: 90.0
